

Recreation Committee minutes*

*These are unofficial Minutes subject to approval at the next regular meeting.

May 27, 2014

Present: Lisa Marchinkoski, Diane Baker, Dana Jones

Pavilion: The Committee met at Elfin Lake to decide on location, type, and size of pavilion to be erected as a result of donation to the program.

The group looked at models from various companies and visibility to water. The decision was to build a 24' x 20' that is the same design as the one at ball field. The first choice site is the spot on the knoll just in from the back wooden fence to run parallel to building that is there. This site has the best visibility to the lake for parents and others supervising children.

A second site discussed is to the south of the knoll on the flat section to run 24' east-west direction.

Lisa offered to contact Rodney Ward about GE volunteers erecting the building.

Tennis Courts at Rec Field: The Committee discussed the condition of tennis courts with the recommendation that these be repaired with part of the donation money. Lisa and Diane visited the site; they are a mess! Someone has started to pull up the trees that have grown around the area. We need someone who can advise as to best way to pull up all trees and roots so surface can be reconditioned. One net appears to be OK and other needs to have turning mechanism repaired.

Approved: 7/2/2014
