WALLINGFORD ENERGY COMMITTEE

Agenda for the September 22 Meeting at 6:30 upstairs at Town Hall

Review, discussion and approval of the July minutes

New Energy Codes as of September 1

Commercial Code (Jay)

Residential Code (John)

Energy Committee role: e.g. public meetings

H.688 the Global Warming Solutions Act

Will the governor veto it?

If not, what will change?

Goals essentially the same as those in the Vermont Comprehensive Energy Plan but this legislation makes them mandatory

and provides an enforcement mechanism.

Recognition for solar developers

What has been built plus what has been proposed puts Wallingford on track to exceed its 2025 generation target and within striking distance of the target for 2030

How can we recognize this leadership?

New Members?

New business/Pressing Issues
