Other business

- Cassie asked why the Select Board completely disregarded the suggestion of the Rec. Committee to not move forward with only a half measure fix for the basketball court, decided on a substandard fix. Discussion ensued, all members expressed frustration especially given that a bond was voted on and approved by the town to fix the court properly. It was also noted that by simply raising the grade of the court the hoops would no longer be at regulation height which could be problematic for aspiring Mill River players.
