**Article 01. Will the District vote to approve and authorize the Prudential Committee to expend the specific amounts of monies to be appropriated for all necessary Water/Sewer Fund expenses and apportioned by the Prudential Committee for the several purposes provided as per the proposed 2021-2022 Fiscal Year Budget in the amount of \$423,900.00?**

Shane St. Clare asked if the board was targeting water/sewer rates or doing another bond. Kandie said that the water/sewer rates would be increased to cover the costs. Shane stated that way back in 2001 there was a contract with the State that would charge a set rate. He stated on that contract there would be a bond cost for the recent repairs to the system, a service fee of approximately \$125 per meter which would include 40,000 gallons of water annually and the rate would be approximately \$2.50 per 1,000 gallons for anything above that. Shane stated that right now it's almost impossible for low-income families to

afford the water/sewer. Shane believes that bonds would be better than raising the rates. Dennis stated that the State regulations have changed. Kandie and Bill both said that they would try and find some more information to look into this further at a future Prudential Committee Meeting.
