

Building Committee meeting May 16, 2022

The meeting was called to order at 6:00 p.m. by Chairman Robbie Stubbins. Also present were members Anthony Fahoury and Joyce Barbieri.

There were no visitors and no public comment.

The April minutes were approved by consensus.

We are still awaiting the RFP from Bill Lohsen for the boiler and heat pump component discussed for the Town Hall building.

Ken Welch is working on the necessary RFP for spray foam in the basement and the caseway leading up to the clock tower.

Anthony had done a lot of research regarding the sand and salt sheds for the town garage. He had the RFP for Fair Haven and information on various types of recommended replacements. Anthony will attend the May 16<sup>th</sup> Selectboard meeting to present his findings.

We discussed the possibility of merging the Building Committee with the Energy Committee since we are both working on many of the same issues. Robbie is also on this committee and they have an opening that Anthony could fill. Robbie will talk to their chairman.

The meeting adjourned at 6:30 p.m.
