

WEC Minutes – 10/03/2023

Approved

Attendees: Ralph N., Tom F., Jay W, David C, Kathrine M, John A, Doug B

Sept. Minutes approved

Town Hall heat pumps: Ken explained that we'd need a new service sub-panel installed for the heat pumps, and that he will send Rob S. cut sheets for the pumps.

Connecting with neighboring town energy committees : David described that there currently are no active energy committees in Clarendon or Shrewsbury. David plans to contact Tinmouth's committee chair to gauge their interest in mutually exploring solar for Mill River School District, along with contacting Clarendon and Shrewsbury Selectboard to gauge their interest as well.

MERP Funds: David has learned that these funds cannot be used to build solar arrays.

EV charging locations in Wallingford: David will contact GMP and to explore potential EV charging stations in town. Potential suggested sites include Dollar Store substation?

Others?

Discussion followed regarding an effort to encourage the town and townspeople to consider future potential purchase of electric vehicles for replacement when appropriate and encouraging use of electric small engine mowers, etc.

Discussion also included communications with the Selectboard about WEC potential projects and priorities.

Adjourn
