Town Energy Plan

Sean Beaty of Rutland Regional Planning (RRP) communicated that the Town Plan should include the "Enhanced Energy Plan"

rather than a 1 page Energy summary. RRP will be providing updated statistics on energy use throughout the town for inclusion in the plan. The Energy Committee will begin to revise the plan now and then incorporate the updated information from RRP when it becomes available. The revised Town Plan including the updated energy section is due May 2026.

New business from the floor

Gilbert Hart Library is considering pursuing a grant to support installation of heat pumps and possibly other improvements. Energy Committee representatives will meet with a representative of Library Trustees on 10/9/25 to discuss options and provide guidance on potential approaches and next steps.

Meeting adjourned at 6:40 PM

Next meeting will be 5:30 PM on Nov. 4 at the Town Hall
